📍 Lahore, Punjab

SKILLS

JavaScript   Node.JS   React JS

Github   Python   SQL   Machine Learning

UI UX Design   Figma

EDUCATION

BS Software Engineering

Sukkur IBA University

2019 - 2023

CGPA: 3.5

Intermediate

Govt. Girls High School

2016-2018

Grade : A

CERTIFICATES

Data Structures and Performance

Mathematical Thinking in Computer Science

Relational Databases in SQL

PROFILE

A passionate software engineering graduate is driven to create innovative software solutions, leveraging strong programming skills and a deep love for technology to impact the industry positively

----

WORK EXPERIENCE

Student Researcher

Norwegian Institute of Science and Technology (NTNU) • Gjovik   08/2023 - 12/2023

- Researched on European Union Funded Project, Neurological Disorder Patient Classification.
- Performed Exploratory Data Analysis on the raw sensor data
- Trained Machine Learning Model for classification
- Learned research and article writing

Web Developer Intern

Fastech Systems • Sukkur, Sindh   07/2023 - 08/2023

- Worked with a cross-functional team
- Worked on React and Node.JS

UX Intern

Youpal Group • Remote   04/2023 - 05/2023

- Conducted Qualitative Interviews
- Researched competitive analysis
- Created wireframes using Figma
- Completed UI Design of AI Text to Image Generator Project

PROJECTS

Neurological Disorder Patients Classification

Funded by European Union under NTNU   08/2023 - 12/2023

Machine Learning, Exploratory Data Analysis, Research Writing, Model Training

ERC 721 NFT MARKETPLACE

Final Year Project   08/2022 - 7/2023

React, Solidity, ERC 721, Web3.Js, IPFS, Ganache
